## CMX 600 Vi

Only **1** unit available

Stock Machine in  
DMG MORI Thailand

### Solution-based Machine for Every Shop Floor

1. The largest Y-axis travel in its class of 560 mm, covering a wide range of workpieces
2. High-performance spindle of up to 12,000 min<sup>-1</sup> as standard for high-speed machining
3. Wide work envelope in space-saving design
4. Improved ergonomics with movable table in X axis
5. Rigid Y-axis concept in whole range of travel
6. FEM-optimized design & construction with small foot print

### Specifications :

- + CMX 600 Vi with Control F0iMF
- + Standard spindle 12,000 min<sup>-1</sup>, 15/ 11 kW
- + Spindle Taper #40/ Grip MAS <BT40>
- + Interface for Additional 1-axis (connected from ceiling) (without motor)
- + Tool storage capacity 30 tools with Tool magazine door
- + Usable Coolant Type: Water-Soluble Coolant
- + Chip conveyor (left discharge, inner pan scraper type + drum filter)
- + Through-Spindle Coolant System (1.5 MPa, Constant Pressure) (Mount on Coolant Tank Type)
- + Coolant gun for machining side
- + Program restart options for Control

### CMX 600 Vi

Highly Reliable Vertical Machining Center  
with Unmatched Quality and Durability

Max. X travels	600 mm
Max. Y travels	560 mm
Max. Z travels	510 mm
Max. table load	600 kg
Table size	900 x 560 mm
