

PERIPHERALS

<For holder bores> Cleaning tool

WIPER CLEANER (for chuck bore: $\varnothing 3 - \varnothing 12$)

- Developed for cleaning the clamping bores such as hydraulic chucks and shrink fit holders.

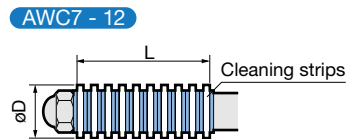

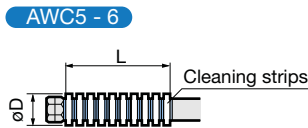

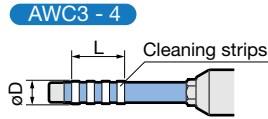

Use a cleaner matching the chuck bore size.

Ideal for small-diameter bores!
Insert and extract the cleaner to remove inner chips, particles and oil.

Inner diameter $\varnothing 3$ and up

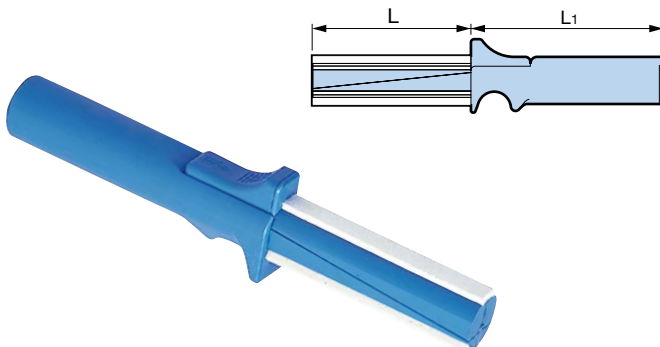

Model	$\varnothing D$	L
AWC 3	3	7
AWC 4	4	
AWC 5	5	
AWC 6	6	
AWC 7	7	20
AWC 8	8	
AWC 9	9	
AWC10	10	26
AWC11	11	
AWC12	12	31

1. $\varnothing D$ in table = supported holder bore \varnothing

TK CLEANER (For chuck bores: $\varnothing 13 - \varnothing 42$)

- Wipes off particles and oil in chuck bore and keeps your machining safe and secure.

For MEGA DOUBLE POWER CHUCK/
NEW HI-POWER MILLING CHUCK/HYDRAULIC CHUCK

Model	Supported holder bore (\varnothing)	L	L ₁	Number of cleaning strips
TKC13	13	60	106	2
14	14			
15	15			
16	16			
18	18	70		
20	20	80	121	3
25	25	100		
32	32	105		
40	40		105	4
42	42			

※ Select in accordance with the chuck bore
